ABOUT US

Founded in 1992, Wallfit Partitions has dedicated over three decades to revolutionizing interior solutions with innovative glass partitions and demountable partitions. From overcoming early challenges to achieving significant milestones, our unwavering vision of creating a meaningful and far-reaching legacy has guided our journey.

With a focus on modern, functional designs, we strive to combine quality craftsmanship with adaptability, making our partitions a symbol of versatility and efficiency. Driven by the collective passion of multiple generations, Wallfit Partitions continues to set new benchmarks, shaping a future where design and functionality converge seamlessly.

INTRODUCTION

At Wallfit Partitions, we take pride in crafting high-quality Aluminium and sheet metal products that redefine spaces with precision and elegance. Our in-house fabrication plant, equipped with state-of-the-art machinery for Aluminium Double Head Cutting,Punching, Grooving, tube cutting, laser welding, and laser cutting, ensures the finest quality in every product we create.

Driven by a vision to transform spaces into havens of peace and functionality, we dedicate ourselves to producing partitions that embody simplicity, balance, and timelessness. As a company rooted in thoughtful design, we believe in the power of innovation and exceptional craftsmanship to enhance everyday living.

Every Wallfit Partition is a testament to our commitment to sustainability and innovation, blending functionality with artistic expression. We invite you to explore our collections and experience how our partitions can bring tranquility, sophistication, and purpose to your spaces.

Wallfit Partitions – Where Design Meets Functionality.

Unit Of

PREFABRICATED

ADVANTAGES OF FINISHED WALL

The prefabricated structure can continuously complete multiple or all processes of the project in sequence, thereby reducing the type and quantity of construction machinery entering the site, eliminating idle time in process connection, realizing three-dimensional crossover operations, and reducing construction personnel, thereby improving work efficiency and reducing costs.

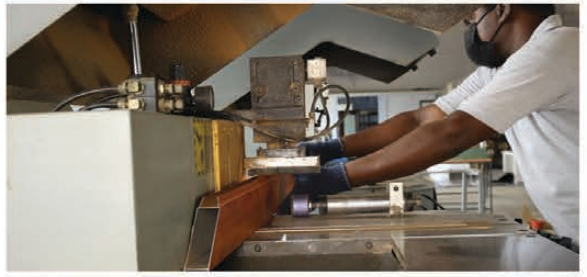
EXCELLENT TECHNICAL TEAM

WallFit Partition established in 1992, located in Coimbatore, is a professional manufacturer engaged in research & development, production, sales and after-sales service of Modular and movable partition wall system and office glass partition system.

ADVANCED PRODUCTION EQUIPMENT



We have leading production equipment, customized one-time roll forming equipment for steel keels and steel plates, and domestic advanced automated laser processing equipment. It ensures the accuracy and stability of the product, and also greatly improves production efficiency.

FEATURES & OPTIONS

FLEXIBILITY IN LAYOUT

Achieve a flexible and adaptable workspace layout with double glass partitions, allowing for the creation of both open collaborative areas and enclosed private offices within the same environment

ENHANCED PRIVACY

Double glass partitions offer increased privacy compared to single glass, creating a more secluded environment for confidential discussions or focused work.

SOUND INSULATION

With the additional layer of glass, double glass partitions provide improved sound insulation, reducing noise transfer between different areas and maintaining a quieter atmosphere.

STRUCTURAL DIVERSIFICATION

Prefabricated What does it mean that decoration technology replaces traditional decoration mode? The significance of its existence is not just to consume shorter installation time and less labor, but to surpass manual work in terms of accuracy and quality, resulting in less waste and higher sustainability. For customers, this decoration method has faster returns, lower time and holding costs, and lower risks.

We provide highly targeted designs and functions for your special requirements. Every project has functional and aesthetic requirements. Therefore, we will tailor solutions for you according to the special needs of the project.
